"And Still They Come.

The rush of New Englanders and New York-The rush of New Englanders and New Yorkets to our village, appears to widen and deepen. A large number of families have arrived here within the past ten days, and are already making preparations to build houses and engage in business. The sales of lots in the two extremes of the Corporation—the upper and lower villages—are quite numerous; and some of the first class dwellings are in progress or projected, and will be creeted before the leaves of Autumn fall.

The best of all is, there is no speculation—no unduc expansion or herease in prices of town lots. There is a gradual rise, but no wild or unhealthy speculation. In other Real Estate, however, the difference is more marked. Farming Lands, adjoining the Corporation, have doubled in price within eight munths. They will undoubtedly double their present rates during the next six months. Underproved lands do not increase as rapidly, and an abundance can yet be purchased in this county for \$1,50 to \$2,50 per sere.

Let the freemen and patriots of Missourl be aroused to the danger that threatens Kanasa.—St. Louis Intelligences.
